

# NOTICE TO MARINERS L23 of 2021

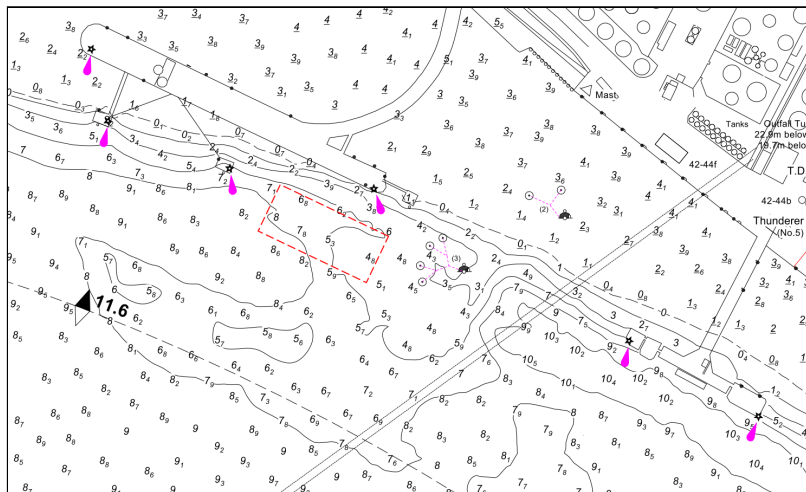

## HALFWAY REACH

# THUNDERER JETTY DECONSTRUCTION AND CONSTRUCTION WORKS

On or about the 14th January 2022, contractors working on behalf of Stolthaven Dagenham Ltd will commence works on the deconstruction and then construction of Thunderer Jetty. It is anticipated that the works will last up to 18-months.

The works, which will include; scaffolding around the downriver jetty, the removal of the current jetty and associated works and the construction of a new jetty in its place. To support these works, a variety of marine plant will be used, including; jack-up barges, supply barges, tugs and works boats. Throughout these operations, Thunderer Jetty will remain operational.

In order to support these operations a temporary mooring box will be established off No. 7 (Curved) Jetty, as detailed in the chartlet below.

All vessels associated with the works will maintain a listening watch on VHF channel 14. Requirements to proceed with caution or at slow speed will be made in accordance with the procedure set out in the Port of London Authority's [Port Information Guide](#), under 'London VTS', 'Section 4'.

Safety boat ALFIE will be on station during working hours and maintain a watch on VHF Channel 14.

Further details will be broadcast by London VTS on **VHF Channel 14**.
